**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Guguin (5,803,545). Guguin discloses the use of a seat (3) and backrest (1) supported in an articulated manner on a frame (11), the seat having a front region and rear region; an operating mechanism (10) for adjusting inclination of the seat and the backrest; and a catch member (7) formed on the backrest; wherein the backrest is inclined from a front position into an inclined rear position, the catch member comes into operative contact with the seat as of a specific angle of inclination of the backrest in a manner that further inclination of the backrest brings about a simultaneous adjustment of the seat; and wherein the seat is supported on the frame at the rear region by a pivot axis (2), and the backrest is adjustable independently of the seat from the front position up to the specific angle of inclination at which the catch member comes into operative contact with the seat. In regards to claim 10, wherein the seat and the backrest have the common pivot axis on the frame. In regards to claim 11, wherein the backrest is supported on the frame by the pivot axis, the pivot axis being provided in a transition region between the seat and the backrest. In regards to claim 12, wherein the operating mechanism is formed by a linear drive that is supported on the frame by one end is in operative

contact with the backrest by another end. In regards to claim 13, wherein the angle between the seat and the backrest remains unaltered during the simultaneous adjustment of the seat and the backrest. In regards to claim 14, wherein the operating mechanism permits a change in an angle between the seat and the backrest, see figure 3.

### ***Response to Arguments***

Applicant's arguments with respect to claims 9-14 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3636

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
